

DigiPoS Keyboard & Mouse

- *Standard PC functionality*

Use on nearly any surface! Navigate with better speed, accuracy and reliability— the optical sensor tracks movement on nearly any surface without the hassle of clogged mouse parts with the PS/2 optical mouse. Track wheel allows you to move through your documents quickly without having to click on the scroll bar.

When simplicity is key for the point-of-sale, this standard PS/2 PC keyboard is durable, reliable, high quality and easy to use - the keyboard for the most demanding requirements with a timeless design.
